FIG. 3 illustrates a first example web-based imaging system 300 in which the invention can be implemented. As will be appreciated from the discussion that follows, this system 300 can be described as a client-based implementation in that much of the system functionality is provided by a client device. A similar system is described in detail in U.S. Patent Application Serial No. 09/924,058, entitled "A Method, System and Program Product for Multiprofile Operations and Expansive Profile Operation," by Shell Simpson, Ward Foster, and Kris Livingston and bearing Attorney Docket No. 10007690-1, the disclosure of which is hereby incorporated by reference into the present disclosure.
